

Before We Talk, Let's Get to Know Your Business...

You applied. You booked your call with Adam. This is the one step in between, and it's the most important one.

Complete this online here: [FORM LINK] or print and complete the attached version, whichever is easier for you.

— ONE HONEST NOTE ON TIMING: we only work with one business per trade, per district. That means even outside of wave limits, if another "trade business" in your area applies and gets approved before you, **your district is no longer available**, full stop. This isn't a countdown timer, it's just how the STRATUS exclusivity actually works. If your territory matters to you, completing this now is the only way to find out if it's still open.

Why this matters more than you think:

You just booked a call with the founder of STRATUS. Not a sales rep, not a call center, Adam himself.

Before that call happens, we want to know who you actually are. Not to check a box, because the time you spend with Adam should be the most useful time you've spent on your business all year, and that only happens if he understands your business before you say a word.

Here's the honest truth. We don't take everyone.
STRATUS is currently taking a new wave of businesses, strictly limited to 10 spots.

This document is where we start figuring out if your business is the right fit.

The required section below takes two minutes.

The story questions after that are optional, but here's why they're worth your time anyway: the more complete this is, the more specifically Adam can speak to your actual business on the call, and the higher priority we give your application when spots are limited.

Watch the short video from Adam attached to this email too, it explains exactly how STRATUS works before you even pick up the phone.

Here's what happens after you complete this:

1. Adam personally reviews what you write before your call
2. You get on Zoom with Adam, and he shows you exactly how STRATUS applies to your business
3. If it's the right fit, you lock in your rate on that same call, backed by our 30-Day Satisfaction Guarantee on the monthly fee, and our Territory Exclusivity Guarantee, we only work with one business per trade in your district
4. Your systems go live within 7 days

Let's begin.

PART 1, REQUIRED, TWO MINUTES

Your Business name:

Trade or services offered:

Area you serve:

Roughly how many clients do you serve per month?

Do you currently have a website? If yes, link it here:

Your Best Social media profiles links (Google Business Profile, Facebook, Instagram):

.....

.....

.....

How do most of your customers find you today? (Referrals, Google, ads)

.....

.....

.....

What's the one thing that frustrates you most about running your business right now? Be specific. This is likely the first thing Adam addresses on your call.

.....

.....

.....

Roughly what does that frustration cost you? A missed job, a slow month, a quote you didn't get to in time. No need to be exact, just what comes to mind.

.....
.....
.....

PART 2, OPTIONAL, THE MORE YOU SHARE, THE MORE WE CAN TAILOR YOUR CALL

How did you start your business? What were you doing before this, and what made you take the leap?

.....
.....
.....

Why did you start it? What's the actual reason underneath "to make money"?

.....
.....
.....

If your business succeeds exactly the way you hope, what does that look like for you personally? More time with family? Financial freedom? Being known as the best in your city? Say it plainly.

.....
.....
.....

Fast forward three years. What does the business look like, and what does your life look like? This is the real destination Adam and the team will build toward.

.....
.....
.....

PART 3, YOUR CALL WITH ADAM

Here's exactly what to expect once you're on Zoom:

- Adam already has your answers in front of him, no repeating yourself
- He'll walk you through the 6 systems that answer every call, follow up every lead, and bring your past customers back, and show you specifically how they apply to what you told him

- He'll show you, using what you shared, roughly what your current gap is costing your business right now, so you're deciding with real numbers, not a guess
- You'll know by the end of the call whether this is the right fit, no pressure, no hard sell
- If it's a fit, you lock in your rate on the spot, before spots are gone

Bring this with you to the call, however much you filled in. We're looking forward to meeting you.
